WE KNOW SKIN

One-of-a-kind Skin Care and Product Evaluations

Your skin is uniquely yours, protecting you from head to toe, and wrapping you in its signature glow. Find out exactly what your skin needs to be at its very best. One of our experienced skin care specialists will spend thirty minutes evaluating your skin, considering your personal goals, and setting you on the right path to achieve your skin's greatest potential.

Plastic Surgery Associates welcomes men and women of all ages to enjoy better looking, healthier skin by taking advantage of the most advanced skin care procedures and products that we have to offer.

SKIN CARE TREATMENTS

HELLO GLOW

Crystal Exfoliating Treatment *45 minutes*

This microdermabrasion treatment incorporates natural baking soda crystals to gently remove damaged skin and stimulates new healthy skin cells. Your skin will have a more vibrant appearance and smoother texture. For all skin types.

* DESIGNED FOR *anti-aging, improving skin tone and texture*

IMMERSE YOURSELF

Exfoliating Hydration Therapy Treatment *45 minutes*

This customized treatment is a DermaSweep® microdermabrasion treatment. It sweeps away the old layer of skin with a gentle amount of suction while infusing antioxidants and hydration into the skin. This treatment does wonders for all ages and skin types, including rosacea and sensitive skin.

* DESIGNED FOR *anti-aging, improving skin tone and texture*

THE GREAT REVEAL

Alpha Hydroxy Peels *45 minutes*

Our rejuvenating MicroPeel® features glycolic and lactic acid to reveal soft glowing skin. We offer an array of styles and strengths; each designed to your specific skin type. Relax and let us uncover your skin's beauty.

* DESIGNED FOR *sun damage, stimulating collagen, healthy glow*

A BRAND NEW DAY

Vi Peel® *45 minutes*

The Vi Peel® is designed to reverse the signs of aging with a synergistic blend of exfoliating acids suitable for most skin types. The treatment leaves you with beautiful, younger looking skin in about a week.

* DESIGNED FOR *anti-aging, sun damage, improving skin tone, acne*

ALWAYS IN SEASON

Premier Signature Peel *1 hour*

The secret to our exciting Premier Signature Peel is the powerful antioxidants found in nature. This peel mildly exfoliates and refreshes the skin, gently removing dead cells while infusing your fresh skin with healthy antioxidants and rich moisture. Great for all skin types.

* DESIGNED FOR *anti-aging, improving skin tone and texture*

SEAL THE DEAL

Antioxidant Treatment Enhancers *15 minutes*

After your treatment, give your skin that extra finishing touch. Rejuvenating vitamins and amino acid complexes are distributed over the skin with oxygen—the perfect add-on to any of our peels, microdermabrasion, or laser treatments.

* DESIGNED FOR *all skin types, treatment add-on*

GREAT EXPECTATIONS

The Sensitive You *45 minutes*

This extra gentle, no acid, safe treatment incorporates enzymes, steam, extractions, and cryotherapy. It's just the sort of relaxation and indulgence you need.

* DESIGNED FOR *sensitive skin, pregnant and nursing mothers*

SUN DAMAGE BE GONE

Laser Skin Renewal

MedLite™ is a laser that targets irregular pigmentation in the skin and stimulates collagen. It helps to correct melasma, freckles, and sun damage leaving the skin with an even, smoother appearance. The VBeam™ Laser is a pulse-dye laser that isolates blood vessels and redness to even out the red discoloration of skin and leaves the skin with a more even appearance.

* DESIGNED FOR *stimulating collagen, correcting melasma, freckles, sun damage, spider veins, rosacea, port wine stains*

WRINKLE REDUCTION

CO₂ Laser Skin Renewal

Our state-of-the-art fractionated CO₂ laser technology creates dramatic changes to the face to promote anti-aging. This process stimulates the formation of new collagen to provide better elasticity and support for the skin. Recovery typically takes 10 to 14 days, with the initial redness gradually fading.

* DESIGNED FOR *wrinkle reduction, long term sun damage, improving skin elasticity, stimulating collagen*

SMOOTH SAILING

Laser Hair Removal

Enjoy a quick and simple way to remove unwanted hair from all parts of the body with the High Speed LightSheer® DUET™. This laser uses state-of-the-art diode lasers with vacuum-assist technology to remove hair with greater speed and comfort than other methods. Call today for your complimentary consultation.

* DESIGNED FOR *hair removal*

STAY PUT

Permanent Cosmetics

Skip your daily makeup routine and gain extra time in your day by having a permanent makeup application. This technique applies cosmetic pigments to the eyebrows, eyeliner, or lips. This treatment is virtually painless with the use of highly concentrated topical anesthetics, and takes only a few hours to complete your customized look. Schedule a complimentary consultation and discuss the many options available.

* **DESIGNED FOR** *customized permanent makeup*

SOFTEN THE LINES

BOTOX® Cosmetic

The most popular cosmetic procedure in the country, and one of our most requested services, BOTOX® Cosmetic reduces or eliminates facial lines and wrinkles with no downtime or surgery and little to no discomfort. Through a series of tiny injections, BOTOX® Cosmetic gives you a rejuvenated look by softening crow's feet around the eyes, frown lines between the eyebrows, and horizontal lines across the forehead.

* **DESIGNED FOR** *anti-aging, wrinkle reduction*

FILL IN THE LINES

JUVÉDERM®

As we age, our skin changes. Over time, the natural volume of youthful skin begins to diminish as wrinkles and folds form. JUVÉDERM® is a non-surgical, injectable gel that gently reverses many signs of facial aging, including fine lines and wrinkles, and adds volume to the lips while restoring an overall youthful shape to the face.

* **DESIGNED FOR** *anti-aging, wrinkle reduction, facial contours*

LUXURIOUS LASHES

Latisse® Eyelash Enhancement

Latisse® is the first and only prescription treatment approved by the FDA for eyelash growth. Lashes will grow longer, thicker, and darker with Latisse®. It is a once-a-day treatment you apply to the base of your upper eyelashes, with full results by weeks 16 to 20.

* **DESIGNED FOR** *longer, thicker, darker eyelashes*

All skin care treatments include a complimentary paraffin hand treatment.
